Distribution of Geocluster response times in a Drupaljobs test scenario

Legend: mysql (blue), solr (red)

y-axis: *frequency of results below the given response time* (0%, 5%, 10%, 15%, 20%)

x-axis: *max response time in milliseconds* (200, 250, 300, 350, 400, 450, 500, 550, 600, 650, 700, 750, 800, 850, 900, 950, 1000, 1050, 1100)
